

Devesys Technologies Signs TrakWeb™ License Agreement with a world-class R&D firm

MADISON, WI, September 30, 2012 - Devesys Technologies, Inc. (DTI) is pleased to announce that it is providing a multi-seat TrakWeb™ software license to a world-class research and development firm.

TrakWeb and the HR data pull to populate employee data fields will be used by various departments including Ethics, Compliance, HR, Employee Concerns and Security for monitoring and reporting on investigations, audits, and compliance activities.

TrakWeb™ is an industry-leading enterprise case and investigation tracking, reporting and management system. This browser-based case tracking system serves large groups of users, or organizations with users in widely scattered locations—all on the client's own hardware and within their corporate firewall.

"The software was configured to more closely fit the needs of this company regarding what information is captured, how it is organized and presented to the users, and the content and organization of reports," said Jim Preysz, President of DTI.
