

Devesys Technologies Delivers Additional Case Management System to Fortune 500 Drug Manufacturer

MADISON, WI, October 30, 2012 - Devesys Technologies, Inc. (DTI) is pleased to announce that it is providing additional software licenses and customizations to another area of a global Fortune 500 health care company for TrakEnterprise 6 and TrakWeb "Lite", both part of an industry-leading enterprise case and investigation tracking, reporting and management system.

The Trak products, helpline import, and HR data pull to populate employee data fields will be used by various departments including Ethics, Compliance, Security and Employee Relations investigators for monitoring and reporting on investigations, audits, and compliance activities.

"We are extremely pleased to provide more licenses and customizations of TrakEnterprise and TrakWeb "Lite" for one of the world's leading companies. These Trak products will be modified to more closely fit the needs of this company regarding what information is captured, how it is organized and presented to the users, how users use the products in managing cases, and the content and organization of reports," said Jim Preysz, President of DTI. This company has proudly used Devesys case tracking and management software since 2002.
