Devesys Technologies Signs TrakWeb™ License Agreement with Large Operator of Health Care Facilities

MADISON, WI, February 23, 2015 - Devesys Technologies, Inc. (DTI) is pleased to announce that it is providing a 30-seat TrakWeb™ software license to one of the largest for profit operators of health care facilities in the world. The company has been using earlier versions of the Devesys ethics administration system software since 1997.

TrakWeb™ with the optional helpline import service and encryption of sensitive content will be used by the Ethics and Compliance (E&C) Office to monitor and report on E&C cases and investigations activities.

TrakWeb™ is an industry-leading enterprise case and investigation tracking, reporting and management system. This browser-based case tracking system serves large groups of users, or organizations with users in widely scattered locations—all on the client's own hardware and within their corporate firewall.

"The software was configured to closely fit the client's needs regarding the fields of data collected and how it's organized and viewed by the users" according to Jim Preysz, President of DTI.

About Devesys Technologies, Inc.
Devesys® has been providing case management, tracking and reporting systems since 1995 for a wide variety of functional areas, such as Ethics, Compliance, HR, ER, Security, Legal, Privacy, and Audit. Its industry-leading analytical tools and reporting capabilities have long been used by many Fortune 500 companies. Devesys has won strong praise for outstanding tracking systems that are easy to use and maintain, and for their responsive support team. TrakEnterprise® and TrakWeb™ are highly configurable, adaptable, and scalable. See more at http://www.devesys.com/.
