

## **Devesys Technologies Chosen to Upgrade Case Management System to TrakWeb™**

MADISON, WI, January 17, 2016 - Devesys Technologies, Inc. (DTI) is pleased to announce that a spacecraft launch service provider serving the U.S. government has upgraded the Devesys desktop TrakEnterprise® platform behind its firewall to the TrakWeb™ case management system, including in-place encryption of sensitive content such as names, employee IDs, narrative and other non-statistical data, using industry-standard native SQL Server column-level encryption techniques.

"We are extremely pleased to deploy our latest version of TrakWeb with one of the world's leading companies. TrakWeb enables its Office of Internal Governance and its 30 users to collaborate on issues and cases on an enterprise-wide basis," said Jim Preysz, President of DTI. "They had been using an earlier version of our software since 2007."

### About Devesys Technologies, Inc.

Devesys® has been providing case management, tracking and reporting systems since 1995 for a wide variety of functional areas, such as Ethics, Compliance, HR, ER, Security, Legal, Privacy, and Audit. Its industry-leading analytical tools and reporting capabilities have long been used by many Fortune 500 companies. Devesys has won strong praise for outstanding tracking systems that are easy to use and maintain, and for their responsive support team. TrakEnterprise® and TrakWeb™ are highly configurable, adaptable, and scalable. See more at <http://www.devesys.com/>.
