

Devesys Technologies and United Launch Alliance Announce Agreement

DENVER, CO and MADISON, WI, August 20, 2008 - Devesys Technologies, Inc. (DTI) is pleased to announce that it has signed a multiple license agreement with United Launch Alliance LLC (ULA), a joint venture of The Boeing Company and Lockheed Martin Corporation, for the existing TrakEnterprise system. This will enable users throughout ULA to collaborate on issues and cases on an enterprise-wide basis.

"We are pleased to add United Launch Alliance to our list of clients. Like numerous Fortune 100 and Fortune 500 companies using our technology, they have chosen DTI's innovative case tracking and reporting system, TrakEnterprise, allowing them to have many users connected to a single central database no matter where they are located," said DTI's Vice President, Jim Preysz. Devesys' tool set forms the hub of a comprehensive compliance system, connecting compliance officers with other departments, external services, and upper management. Its industry-leading analytical tools and reporting capabilities have gained respect and are being used within many Fortune 100 and Fortune 500 tier companies.

About Devesys Technologies, Inc.

Devesys® Technologies, Inc., has been developing case management, tracking and reporting systems for Fortune 500 companies since 1995. Devesys has won strong praise from the Ethics and Compliance marketplace for outstanding tracking systems that are easy to use and maintain, and for their responsive support team. Devesys continually improves the quality of its products with periodic upgrades to ensure best of class capabilities in case tracking, management, and performance metrics. Devesys' product line consists of TrakBasic® TrakEnterprise®, and TrakWeb™. Find out more at www.devesys.com.

About ULA

Formed in 2006, ULA combines the successful Delta and Atlas expendable launch vehicle programs to offer cost-effective and reliable launch services to U.S. government customers, including the Department of Defense, NASA, the National Reconnaissance Office and other organizations. ULA program management, engineering, test and mission support functions are headquartered in Denver, Colo. Manufacturing, assembly and integration operations are located at Decatur, Ala., Harlingen, Tex. and San Diego, Calif. Launch operations are located at Cape Canaveral Air Force Station, Fla., and at Vandenberg Air Force Base, Calif. For more information, please visit www.ulalaunch.com.
