

## **Fortune 500 Drug Manufacturer Orders Licenses and Customizations from Devesys Technologies**

MADISON, WI, October 27, 2009 - Devesys Technologies, Inc. (DTI) is pleased to announce that it is providing additional software licenses and customizations to a global Fortune 500 health care company for TrakEnterprise 6 and TrakWeb "Lite", both part of an industry-leading enterprise case and investigation tracking, reporting and management system.

"We are extremely pleased to provide more licenses and customizations of TrakEnterprise and TrakWeb "Lite" for one of the world's leading companies. These Trak products will be modified to more closely fit the needs of this company regarding what information is captured, how it is organized and presented to the users, how users use the products in managing cases, and the content and organization of reports," said Jim Preysz, Vice President of DTI. This company has proudly used Devesys case tracking and management software since 2002.

TrakWeb and TrakEnterprise form the hub of a comprehensive case management system. TrakWeb "Lite" gives investigators and other authorized users access to all of their cases through the web from anywhere within the company's network. It allows them to edit and print web versions of investigation case reports.

### About Devesys Technologies, Inc.

Devesys® Technologies, Inc., has been developing case management, tracking and reporting systems since 1995. Its industry-leading analytical tools and reporting capabilities are being used within many Fortune 500 companies.
