

## **Devesys Technologies to Upgrade Case Tracking and Investigation System for leading healthcare benefits company**

MADISON, WI, Oct. 20, 2008 - Devesys Technologies, Inc. (DTI) is pleased to announce that it has signed a license agreement with a leading health care benefits company, to upgrade its current TrakEnterprise platform to Devesys' upcoming release of the next generation of its industry leading case tracking and investigation system TrakEnterprise 2009. This new version using Microsoft Visual Studio .NET platform has a host of new enhancements and optimizes the current TrakEnterprise feature set.

"We are extremely pleased to continue our long standing relationship with a world leader in the healthcare benefits industry", said Jim Preysz, Vice President of DTI. "This extensive upgrade to the .NET platform puts them on the cutting edge of case tracking and investigation enterprise solutions and we anticipate many of our clients will follow suit with this upgrade path in the coming months."

The client company operates as a diversified health care benefits company primarily in the United States and Canada. The company provides health insurance products and related services, including medical, pharmacy, dental, behavioral health, group life, and disability plans, as well as medical management capabilities and health care management services for Medicaid plans.

TrakWeb and TrakEnterprise form the hub of a comprehensive case tracking and investigation system.
