

Fortune 100 Subsidiary Orders Licenses and Customizations from Devesys Technologies

MADISON, WI, – June 16, 2010 Devesys Technologies, Inc. (DTI) is pleased to announce that it is providing multi-seat software licenses and customizations to a subsidiary of a Fortune 100 communications services company for TrakEnterprise and the Security Tracking System, both part of an industry-leading enterprise case and investigation tracking, reporting and management system.

The parent company's Corporate Security organization has proudly used the Security Tracking System developed by Devesys since 2002.

"We are extremely pleased to provide licenses and customizations of TrakEnterprise and the Security Tracking System for one of the world's leading companies. These products will be modified to more closely fit the needs of this company regarding what information is captured, how it is organized and presented to the users, how users use the products in managing cases, and the content and organization of reports," said Jim Preysz, Vice President of DTI.

About Devesys Technologies, Inc.

Devesys® has been providing case management, tracking and reporting systems since 1995 for a wide variety of functional areas, such as Ethics, Compliance, HR, Security, Legal, and Audit. Its industry-leading analytical tools and reporting capabilities have long been used by many Fortune 500 companies. Devesys has won strong praise for outstanding tracking systems that are easy to use and maintain, and for their responsive support team. TrakBasic® , TrakEnterprise®, TrakWeb™ and the Security Tracking System are highly configurable, flexible, and scalable. See more at www.devesys.com.
