

The PMI Group Selects

Devesys Technologies to Support Case Management

MADISON, WI, – May 5, 2011 Devesys Technologies, Inc. (DTI) is pleased to announce that it is providing a multi-seat TrakWeb™ software license to the PMI Group for implementation of the Office of Inspector General and Whistleblower Program for the Los Angeles Community College District's \$6 billion bond-funded construction programs. TrakWeb will be used for monitoring and reporting on investigations, audits, and compliance activities.

TrakWeb™ is an industry-leading enterprise case and investigation tracking, reporting and management system. This browser-based case tracking system serves large groups of users, or organizations with users in widely scattered locations—all on the client's own hardware and within their corporate firewall.

"The software will be modified to more closely fit the needs of this company regarding what information is captured, how it is organized and presented to the users, and the content and organization of reports," said Jim Preysz, Vice President of DTI.

About Devesys Technologies, Inc.

Devesys® has been providing case management, tracking and reporting systems since 1995 for a wide variety of functional areas, such as Ethics, Compliance, HR, ER, Security, Legal, Privacy, and Audit. Its industry-leading analytical tools and reporting capabilities have long been used by many Fortune 500 companies. Devesys has won strong praise for outstanding tracking systems that are easy to use and maintain, and for their responsive support team. TrakBasic®, TrakEnterprise®, TrakWeb™ and the Security Tracking System are highly configurable, adaptable, and scalable. See more at <http://www.devesys.com/> and why hotlines are not enough.
